

Dear Friends and Guests:

We appreciate your loyal patronage over nearly 15 years. In an effort to improve our visibility and reach more of you, The Osborne Inn has joined with booking.com to secure your reservations. We will continue to maintain our website at Osborneinn.com. It has useful information regarding the history of Spring City, the Inn and other local attractions not available on the other websites.

Many of you know that one of our major reasons for relocating to Spring City in 2004 was to rekindle our spirits and heal from nearly 30 years of working in busy Level 1 Emergency & Trauma Centers. We thought others would also welcome the change to a more peaceful climate, so our family opened the Osborne Inn in 2005. Over the years we have touched hearts and souls with many of you-- the real reward for our labors here. As we've changed career paths, we learned, in the nick of time, that Dane was literally killing himself slowly as an emergency physician through irregular sleep, exercise and eating habits. As we've come to learn of the impact of lifestyle on health and longevity, Dane underwent additional training and board certification in Integrative Medicine in 2013. We are pleased to announce that he will be opening a part-time Integrative Medicine Clinic adjacent to the inn here in Spring City, Utah. See danemchapmanmd.com for details and if you wish, to arrange for an individual or group consultation.

Our initial objective when we set up the Inn back in 2005 was to pass on the abundance of peace and quiet we find here to our friends and guests. Many like us have healed as friends and family and many of us have been able to "get our lives back". In fact, several of our past guests have since relocated to Spring City!

We are dedicated to living a healthy lifestyle and applying the principles of wellness. We are pleased to share what we have found to be most helpful with you. You will also find that we are adapting what we serve our guests for breakfast as "food is medicine". Would you like some fresh air and exercise on one of our complementary bikes for registered guests? Or perhaps a walk around our beautiful town recognized for over 50 buildings on the National Register and its designation as a National Historic District. Hike, climb or repel nearby Maple Canyon or up Center Street into Spring City Canyon. You will love the natural wilderness as you venture outside the Inn. Just Come! Rejuvenate your spirit and rekindle your love of life as you experience the impact of a few simple adjustments like healthy food options, a bit of exercise, peaceful quiet and rest.

Kindly,
Dane and Barbara Chapman
